

SOUTH DAKOTA TECHNICAL COLLEGE SYSTEM

FALL 2020 RETENTION

METHODOLOGY

This report measures the percentage of degree- and certificate-seeking students from the previous fall who either re-enrolled or successfully completed their program by the current fall.

To determine retention rates, each college begins with its 10-day institutional enrollment report by program from the previous year. This number includes all students (first- and second-year) in each program.

To calculate the retention rate, the college determines which of these original students graduated from or are still enrolled in each program. This is used to determine individual program retention rates.

Students who are still enrolled at the college but who are no longer enrolled in the program are included in the final column's institutional retention rate for that program.

The calculation for the overall institutional retention rate $((\text{total graduates} + \text{still enrolled}) / \text{total enrolled in programs the previous year})$ does not include high school students or students who are not seeking a degree or certificate.

Student data are reported to the Board of Technical Education in aggregate form, maintaining the confidentiality of all individuals, and in accordance with technical college/FERPA protocols governing these types of data.

SOUTH DAKOTA TECHNICAL COLLEGE SYSTEM

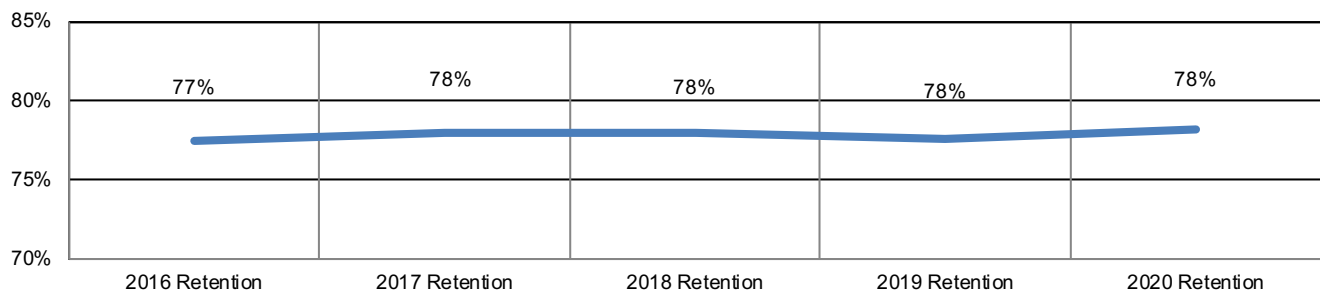

FALL 2020 RETENTION

RETENTION BY CAREER CLUSTER

*Retention rate is determined using the 10 day count from the previous year as the divisor.
The dividend is the number of returning and/or graduated students on day 10 of current year.*

CAREER CLUSTER	2016 Retention	2017 Retention	2018 Retention	2019 Retention	2019 10-Day Enrollment	2020 10-Day Return and/or Graduated #	2020 Retention
